Analytic subject index

Alkali halides
– Quadratic electro-optic effect and second-order strain derivatives of electronic susceptibility - Kucharczyk 176 (1992) 189
Alkali metals
– Pressure effect on anharmonic coefficients for the specific heat of — and alloys - Soma et al. 176 (1992) 95
Anderson model
– Localisation and the critical density of states for the — - Burr et al. 176 (1992) 70
Anharmonicity
– Pressure effect on anharmonic coefficients for the specific heat of alkali metals and alloys - Soma et al. 176 (1992) 95
Anomalous magnetism
– Anomalous properties of $PrBa_2Cu_3O_7$: a comment - Sampathkumaran 176 (1992) 217

Bose condensates in liquid ^4He
– Neutron scattering determination of condensate in liquid ^4He - Bogoyavlenskii et al. 176 (1992) 153

Calorimetry
– Differential scanning — (DSC) studies of hydrogenated amorphous semiconductor alloys - Battezzati et al. 176 (1992) 73
Charge-density-wave
– Phasons in the charge ordered ground state of mixed valence compounds - Degiorgi and Wachter 176 (1992) 239
Co, magnetic properties of
– Magnetic properties of hexagonal-close-packed Co and Ni - Maksimović and Vukajlović 176 (1992) 227
Coherent radiofrequency irradiation
– Nuclear spins — in ferromagnets - Khutsishvili and Chkhaidze 176 (1992) 54
Collective effects
– Self-energy of a tunneling electron - Nam and Tran Thoai 176 (1992) 61
Cryocrystals
– Exciton–polariton dispersion in ultrathin atomic — - Rumyantsev and Shunyakov 176 (1992) 158

Domain structure
– Dynamic domains in ferrit–garnet film - Kandaurova and Sviderskiy 176 (1992) 213
Dynamical frequency shift
– Nuclear spins coherent radiofrequency irradiation in ferromagnets - Khutsishvili and Chkhaidze 176 (1992) 54

Electrical resistivity, $R(Co,Al)_2$
– The magnetic phase transitions in R(Co, Al)$_2$ compounds (R: Dy, Ho, Er) - Duc et al. 176 (1992) 232
Electro-optic effects
– Quadratic electro-optic effect and second-order strain derivatives of electronic susceptibility - Kucharczyk 176 (1992) 189
Electron–lattice interactions
– A generalized Dirac–Kronig–Penney model with nonlocal separable potentials - Domínguez-Adame and González 176 (1992) 180
Electron–phonon interaction
– Effect of nonparabolicity on free-carrier absorption in degenerate n-type indium antimonide in quantizing magnetic fields - Wu et al. 176 (1992) 161
– Phasons in the charge ordered ground state of mixed valence compounds - Degiorgi and Wachter 176 (1992) 239
Electronic structure
– Conductivity type change in $MeCr_2S_4$ spinels - Sukhetsky et al. 176 (1992) 219
Exciton–polariton dispersion
– — in ultrathin atomic cryocrystals - Rumyantsev and Shunyakov 176 (1992) 158

4f-delocalisation
– Anomalous properties of $PrBa_2Cu_3O_7$: a comment - Sampathkumaran 176 (1992) 217
1/f noise
– Temperature dependence of — in epitaxial n-type GaAs - Ren and Hooge 176 (1992) 209
1/f noise, temperature dependence
– Temperature dependence of 1/*f* noise in epitaxial n-type GaAs - Ren and Hooge 176 (1992) 209
Ferromagnet
– Nuclear spins coherent radiofrequency irradiation in ferromagnets - Khutsishvili and Chkhaidze 176 (1992) 54
Field applied molecular dynamics
– — (FMD) simulation of the inverse Faraday effect - Evans et al. 176 (1992) 33
Flux states, lifetime of
– Magnetic flux transitions in superconducting loops closed with a low-capacitance Josephson junction due to thermal activation - de Wolff and de Bruyn Ouboter 176 (1992) 115

GaAs, n-type
– Temperature dependence of 1/*f* noise in epitaxial n-type GaAs - Ren and Hooge 176 (1992) 209
Garnet film
– Dynamic domains in ferrit– — - Kandaurova and Sviderskiy 176 (1992) 213

Heisenberg antiferromagnet
– The Lanczos method applied to the Heisenberg antiferromagnetic - Stevens 176 (1992) 1

Infrared reflectivity
– Phasons in the charge ordered ground state of mixed valence compounds - Degiorgi and Wachter 176 (1992) 239

Inverse Faraday effect
– Field applied molecular dynamics (FMD) simulation of the — - Evans et al. 176 (1992) 33

Jahn–Teller interactions
– Effects of quadrupole interactions in rare-earth phosphates RPO_4 (R = Y, Tb–Yb) - Sokolov et al. 176 (1992) 103
Josephson junction
– Magnetic flux transitions in superconducting loops closed with a low-capacitance — due to thermal activation - de Wolff and de Bruyn Ouboter 176 (1992) 115
– The Josephson supercurrent–phase relation - de Wolff and de Bruyn Ouboter 176 (1992) 135
Josephson supercurrent–phase relation
– The — - de Wolff and de Bruyn Ouboter 176 (1992) 135

KDP-type crystals
– Quadratic electro-optic effect and second-order strain derivatives of electronic susceptibility - Kucharczyk 176 (1992) 189

Lanczos method
– The — applied to the Heisenberg antiferromagnetic - Stevens 176 (1992) 1
Laser-induced magnetisation
– Field applied molecular dynamics (FMD) simulation of the inverse Faraday effect - Evans et al. 176 (1992) 33
Lattice dynamics
– — of lutetium: a real space treatment - Singh and Kumar 176 (1992) 222
Localisation
– — and the critical density of states for the Anderson model - Burr et al. 176 (1992) 70
Lu
– Lattice dynamics of lutetium: a real space treatment - Singh and Kumar 176 (1992) 222

Magnetic phase transition
– The magnetic phase transitions in $R(Co, Al)_2$ compounds (R: Dy, Ho, Er) - Duc et al. 176 (1992) 232
Magnetic resonance imaging
– Two-dimensional Fourier transform NMR imaging of solids using large oscillating field gradients - Mat Daud and Halse 176 (1992) 167
– Two-dimensional Fourier transform NMR imaging of solids using multiple pulse line narrowing - McDonald and Lonergan 176 (1992) 173
Magnetism
– Dynamic domains in ferrit–garnet film - Kandaurova and Sviderskiy 176 (1992) 213
Magnetization, $R(Co, Al)_2$
– The magnetic phase transitions in $R(Co, Al)_2$ compounds (R: Dy, Ho, Er) - Duc et al. 176 (1992) 232
Magneto-optical effects
– Effect of nonparabolicity on free-carrier absorption in degenerate n-type indium antimonide in quantizing magnetic fields - Wu et al. 176 (1992) 161
$MeCr_2S_4$
– Conductivity type change in — spinels - Sukhetsky et al. 176 (1992) 219
Monocrystal deformation
– Structural instability of an impurity subsystem induced by — - Bodiul et al. 176 (1992) 147

Neutron interferometry
– On neutron interferometer partial absorption experiments - Kaloyerou and Brown 176 (1992) 78
Neutron scattering
– — determination of condensate in liquid ^{4}He - Bogoyavlenskii et al. 176 (1992) 153
Ni, magnetic properties of
– Magnetic properties of hexagonal-close-packed Co and Ni - Maksimović and Vukajlović 176 (1992) 227
Nondestructive testing
– Two-dimensional Fourier transform NMR imaging of solids using multiple pulse line narrowing - McDonald and Lonergan 176 (1992) 173
Nonlocalized electronic states
– A generalized Dirac–Kronig–Penney model with nonlocal separable potentials - Domínguez-Adame and González 176 (1992) 180

Optical susceptibility
– Quadratic electro-optic effect and second-order strain derivatives of electronic susceptibility - Kucharczyk 176 (1992) 189

Phonon–electron interaction
– Effect of nonparabolicity on free-carrier absorption in degenerate n-type indium antimonide in quantizing magnetic fields - Wu et al. 176 (1992) 161
– Phasons in the charge ordered ground state of mixed valence compounds - Degiorgi and Wachter 176 (1992) 239
$PrBa_2Cu_3O_7$
– Anomalous properties of $PrBa_2Cu_3O_7$: a comment - Sampathkumaran 176 (1992) 217

Quadrupole interactions
– Effects of — in rare-earth phosphates RPO_4 (R = Y, Tb–Yb) - Sokolov et al. 176 (1992) 103
Quantum mechanics
– On neutron interferometer partial absorption experiments - Kaloyerou and Brown 176 (1992) 78
Quantum theory
– On neutron interferometer partial absorption experiments - Kaloyerou and Brown 176 (1992) 78

Rare-earth phosphates
– Effects of quadrupole interactions in — RPO_4 (R = Y, Tb–Yb) - Sokolov et al. 176 (1992) 103
$R(Co,Al)_2$
– The magnetic phase transitions in $R(Co, Al)_2$ compounds (R: Dy, Ho, Er) - Duc et al. 176 (1992) 232
Relativistic wave equations
– A generalized Dirac–Kronig–Penney model with nonlocal separable potentials - Domínguez-Adame and González 176 (1992) 180

Semiconductors, amorphous
– Differential scanning calorimetry (DSC) studies of hydrogenated amorphous semiconductor alloys - Battezzati et al. 176 (1992) 73

Semiconductors, degenerate
– Effect of nonparabolicity on free-carrier absorption in degenerate n-type indium antimonide in quantizing magnetic fields - Wu et al. 176 (1992) 161
Semiconductors, ferromagnetic
– Theory of transport phenomena in ferromagnetic semiconductors with superlattice produced by coherent light beams - Semchuk et al. 176 (1992) 155
Semiconductors, hydrogenated
– Differential scanning calorimetry (DSC) studies of hydrogenated amorphous semiconductor alloys - Battezzati et al. 176 (1992) 73
Shubnikov–de Haas oscillations
– Structural instability of an impurity subsystem induced by monocrystal deformation - Bodiul et al. 176 (1992) 147
Specific heat, pseudo potential
– Pressure effect on anharmonic coefficients for the specific heat of alkali metals and alloys - Soma et al. 176 (1992) 95
Spinels, $MeCr_2S_4$
– Conductivity type change in $MeCr_2S_4$ spinels - Sukhetsky et al. 176 (1992) 219
SQUID
– Magnetic flux transitions in superconducting loops closed with a low-capacitance Josephson junction due to thermal activation - de Wolff and de Bruyn Ouboter 176 (1992) 115
– The Josephson supercurrent–phase relation - de Wolff and de Bruyn Ouboter 176 (1992) 135
Strain derivatives
– Quadratic electro-optic effect and second-order — of electronic susceptibility - Kucharczyk 176 (1992) 189
Superconductivity
– Anomalous properties of $PrBa_2Cu_3O_7$: a comment - Sampathkumaran 176 (1992) 217
Superconductor–insulator tunnel multilayers
– Some features of *I–V* curves of vertically stacked tunnel junctions - Nevirkovets 176 (1992) 150
Superfluidity
– Counterflow in superfluid ^{3}He–^{4}He mixtures II - Mudde and van Beelen 176 (1992) 17
Superlattices
– Some features of *I–V* curves of vertically stacked tunnel junctions - Nevirkovets 176 (1992) 150
– Theory of transport phenomena in ferromagnetic semiconductors with superlattice produced by coherent light beams - Semchuk et al. 176 (1992) 155

Thermal expansion, $R(Co, Al)_2$
– The magnetic phase transitions in $R(Co, Al)_2$ compounds (R: Dy, Ho, Er) - Duc et al. 176 (1992) 232

^{3}He–^{4}He mixture
– Counterflow in superfluid ^{3}He–^{4}He mixtures II - Mudde and van Beelen 176 (1992) 17

Transition-metal compound
– Phasons in the charge ordered ground state of mixed valence compounds - Degiorgi and Wachter 176 (1992) 239
Tunnel junctions
– Some features of *I–V* curves of vertically stacked — - Nevirkovets 176 (1992) 150

Tunneling
– Self-energy of a — electron - Nam and Tran Thoai 176 (1992) 61
Tunneling electron self-energy
– Self-energy of a tunneling electron - Nam and Tran Thoai 176 (1992) 61
Turbulent flow
– Counterflow in superfluid ^{3}He–^{4}He mixtures II - Mudde and van Beelen 176 (1992) 17

X-ray spectrocopy
– Conductivity type change in $MeCr_2S_4$ spinels - Sukhetsky et al. 176 (1992) 219
XANES
– Conductivity type change in $MeCr_2S_4$ spinels - Sukhetsky et al. 176 (1992) 219
